

DEEP FORK
TREE FARM

ARCADIA • OKLAHOMA

Eastern Red Cedar

Juniperus virginiana

🍃 **Form:** Upright and irregular 🍃 **Size:** 30-50' tall X 10-25' Wide

🍃 **Growth Rate:** Mod to Fast 🍃 **Zone:** 3-9

🍃 **Drought Tolerance:** Moderate 🍃 **Salt Tolerance:** Moderate

Light Requirements: Full sun

Soil Requirements: Well-drained, moist, fertile, humus rich soil; needs well-limed soil for optimal growth; tolerates sand soil

Bark: Rough; tan-gray to reddish brown; older bark exfoliates in fibers and ribbons

Flower: Male cones yellowish brown; female cones yellowish green; inconspicuous; appears early to late Winter

Fruit: Fleshy, oval, drupe-like; ¼" blue purple; glaucous

Foliage: Opposite, whorled, simple, scale-like to awl-like; medium to dark green foliage; older inner foliage turns yellow and sheds throughout Winter

Uses: Specimen, naturalizing, windbreak, screen, hedge, and group plantings with other plants
