Lacebark Elm

Ulmus parvifolia

- 🍃 **Form:** Rounded, Vase
- 🍃 **Size:** 40-50' tall by 35-50' wide
- 🍃 **Growth Rate:** Moderate
- 🍃 **Zone:** 5-10
- 🍃 **Drought Tolerance:** Moderate
- 🍃 **Salt Tolerance:** Moderate

Light Requirements: Full sun to partial shade

Soil Requirements: Well-drained, moist, fertile, humus rich, slightly alkaline to slightly acidic

Bark: Smooth; gray when young; matures to gray, green, orange, and brown; showy trunk; bark exfoliates to reveal random mottled patterns

Flower: Green; inconspicuous; blooms in late Summer to Fall

Fruit: Green or brown, flat, membranous samara seed in middle; distal end clefted or notched, ½" long by ¼" wide; in axillary clusters

Foliage: Alternate, simple, elliptical to ellipticlanceolate and leather with simple to (crenate) rounded, serrated leaf margin; medium to dark green leaves turn yellow to yellow-brown and shed during Fall

Uses: Grown successfully in urban areas with poor conditions; good for street and median settings
