Mexican Plum

Prunus Mexicana

🍃 **Form:** Irregular Round

🍃 **Growth Rate:** Slow

🍃 **Drought Tolerance:** Moderate

🍃 **Size:** 25-30' tall by 20-25' wide

🍃 **Zone:** 6-8

🍃 **Salt Tolerance:** Low

Light Requirements: Full sun

Soil Requirements: Clay; loam; sand; acidic; alkaline; well-drained

Bark: Exfoliating, with bands of dark bluish purple, gray running horizontal around the trunk

Flower: White pleasant fragrance; showy, spring flowering

Fruit: Round 1-3" fleshy purple red

Foliage: Alternate, simple, serrate, elliptic, obovate, ovate, pinnate, 2-4"

Uses: Container or above ground planter; buffer strips, parking lots, median strips, near deck, patio, specimen

In spring, the trees are smothered with fragrant, white blooms which are followed by purple/red, juicy edible fruits. The fruits are often used to make jams and jellies
