Princeton Elm

Ulmus americana 'Princeton'

🍃 **Form:** Upright Vase

🍃 **Growth Rate:** Fast

🍃 **Drought Tolerance:** High

🍃 **Size:** 60-80' tall by 60-100' wide

🍃 **Zone:** 2-9

🍃 **Salt Tolerance:** Moderate

Light Requirements: Full sun

Soil Requirements: Well-drained, acidic to alkaline, clay, loam, or sandy soil; tolerates extended flooding

Bark: Grayish brown with ridges and fissures; flakes and scales develop from ridges

Flower: Green; inconspicuous; appears in early Spring

Fruit: Thin, wafer-like seed; appears soon after flowering

Foliage: Alternate, simple, double serrated; dark green leaves in summer turn yellow in Fall

Uses: Use in reclamation plantings, as a specimen, in urban area, parks and shade trees
