# Shumard Red Oak

*Quercus shumardii*

🍃 **Form:** Narrow rounded

🍃 **Growth Rate:** Fast

🍃 **Drought Tolerance:** High

🍃 **Size:** 55-80' tall by 50-60' wide

🍃 **Zone:** 5b-9

🍃 **Salt Tolerance:** Moderate

**Light Requirements:** Full sun

**Soil Requirements:** Well-drained moist, fertile, humus rich, slightly acidic to slightly alkaline soil; found growing in areas with infrequent flooding

**Bark:** Smooth, gray-brown when young; gray, scaly ridges with dark fissure and tan inner bark with age

**Flower:** Gray-brown male catkin; gray-green female flower matures to gray-brown acorn; blooms in Spring

**Fruit:** Acorns; 1" long by ¾" wide

**Foliage:** Alternate, simple, oblong; six to eight pairs of ascending lobes; dark green leaves; turns brilliant red to reddish orange in Fall

Large parking lots, lawn tree, buffer strips, reclamation planting or shade tree
