Yarwood London Planetree

Platanus x acerifolia 'Yarwood'

🍃 **Form:** Broad pyramidal

🍃 **Growth Rate:** Fast

🍃 **Drought Tolerance:** High

🍃 **Size:** 50-60' tall by 40-50' wide

🍃 **Zone:** 6-9

🍃 **Salt Tolerance:** High

Light Requirements: Full sun tolerates partial shade

Soil Requirements: Well-drained, slightly alkaline to acidic, clay, loam, or sandy soil, tolerant of infrequent flooding

Bark: Smooth; olive to light gray, quickly develops mottled bark patches of creamy white and olive, graygreen

Flower: Male flowers are reddish brown held in ball-like heads; female flowers are brownish yellow to green held in ball-like heads; inconspicuous; blooms in Spring

Fruit: Fruit formed in ball-like heads; fruit can be hazardous in lawn and pedestrian areas

Foliage: Alternate, simple, truncated to palmately lobed, large leaf; light green leaves turn yellowish to brown in Fall; Fall color is not showy.

Large parking lots, large lawn tree, buffer strips, street tree or tree median
